

May 7, 2022

To Harvard / MIT AAMP Team,

My name is Daniel Carrera, I'm an Ecuadorian young economist who asked for your help to my graduate application process last year. I want to let you know my satisfaction regarding my experience with Diana Sverdlin, PhD student at MIT, who was matched to me after I applied for your help.

I feel confident to say that the support brought by Diana since July 2021 has been extremely helpful to me. She guided myself through feedback on my application documents as well as many other advices for this process. As a result, my application certainly got improved thanks to her.

Moreover, I am convinced that her help was crucial to obtain admission this year at my top choice for graduate school, as was the Barcelona School of Economics. Thus, I'm happy and grateful with Diana and the AAMP Team for the opportunity provided.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Daniel Carrera', is shown on a light-colored background. The signature is fluid and cursive.

Daniel Carrera Abad.
